

Vision of Iga City

Courage and readiness
create the future
Iga City where
"the people and communities shine"

Nature, history, culture and tradition
that have been handed down from our predecessors.

We will pass these treasures on to the future
and aim to become a vigorous city where each and every citizen feels safe.

To that end, we will rise above each challenge
by letting citizens take center stage
and promoting interactions among unique communities.

Basic Policy for Urban Development

Safety
and
Security

Vigor

Development
of People
and
Communities

Safety and Security

We will secure the safety and security of citizens by reinforcing the public help, self-help, and mutual help functions. Moreover, we will give due consideration to the natural environment while enhancing preparedness for disasters and accidents.

The first Group Home (regional small-scale orphanage) in the city

Opening of Iga City Emergency Clinic

Renovation of vacant houses

Vigor

We will create vigor by reinforcing inter-industry and government-industry-academia collaboration. By consolidating transportation, information, and telecommunications networks, we will boost the flow of people, goods, and information.

The Iga Region Joint Job Fair was held.

the Iga City Tourism Ambassador

Development of People and Communities

While setting up places where people who will become the leaders of local communities and industries can play an active role, we will promote the development of people and communities that will lead the urban development of Iga City.

Support for community activities

Development of leaders
in agriculture and forestry

Resident Council Activities
